### OUR REQUIREMENTS

- Basic**
- Self motivated individual with abilities to provide innovative solutions
  - Ownership and passion for new product design and development
  - Fundamental knowledge of sensors, illumination and optical considerations for industrial image processing applications
  - Proficient knowledge of image processing algorithms (Computer Vision, Signal processing) and their practical experiences using C or/and C++(OOAD) and multi-thread applications
  - Experiences with image processing libraries (like Halcon, Matrox, Cognex, NI, OpenCV...)

- Desired**
- Practical experiences with system/software architectures and software development life cycle processes
  - Collaborating and communicating with cross-cultural and cross-functional teams
  - Exposure to one or more industries (like Automotive, Medical, Aerospace...) in a production environment

### QUALIFICATIONS

Bachelor or Masters or PhD degree in Electrical or Electronics or Computer Science or related degree from a reputed Engineering college

### EXPERIENCES

Around 3-15 years

### APPLY NOW

If we have convinced you, then please apply via e-mail to [career@eks-intec.in](mailto:career@eks-intec.in)  
We look forward to receive your application.

### WHY EKS InTec India

EKS InTec is a world leader in virtual commissioning of simple to complex production plants and is providing Engineering solutions to global customers for production processes of tomorrow.

As a part of flexible, dynamic and motivated company, you will design and develop software for the digital future enhancing tomorrows mobility. This would mean you will have innovative opportunities and create an impact to shape up the future of innovative planning, analysis & predictive maintenance of global production plants.

Moreover EKS InTec offers world class new product development and long term career opportunities. We also offer benefits and rewards to our employees as listed on our website [www.eks-intec.in](http://www.eks-intec.in).
